To Whom it may Concern:

2AM Group has represented Boysen in regards to our NAFTA content reporting for the past two years. Through the expertise on staff at 2AM, Boysen has successfully completed two Customer NAFTA Audits. We have been able to maintain a high level of compliance through the help of 2AM Group.

I highly recommend 2AM for Customs Programs and will use their services in the future for C-TPAT and other related projects.

Sincerely,
