To Whom It May Concern:

This document is to serve as a reference for 2AM Group LLC. Innertech has been working with 2AM Group on numerous BMW projects. They have assisted our Nashville Facility with sorting and reworking access lids and trim panels for the X5. They have also provided inspection, sorting and rework services for Innertech Spartanburg related to the sunvisor mirror slide, glove boxes at the assembly line and sequencing on load floor and access lids.

Throughout these projects, we have found 2AM Group to be a valuable supplier to our company. They have effectively contained issues that allowed us to reduce customer concerns. They have implemented continual improvement ideas throughout their process. It is apparent these are highly trained professionals eager to perform good quality for their customers. They have been flexible from the start of these projects and have delivered quality service in order to satisfy our Customer.

As we move forward in our preparation for the F25 launch, we will give great consideration to procuring 2AM Group to assist us as needed.

Sincerely,

Randy Keough

Quality Manager
Innertech-Spartanburg
