To Whom It May Concern:

Plastic Omnium has had the pleasure of developing a partnership with 2AM Group over the past year. During this time, we have procured their services for containment, inspection, sorting, rework and repair of product provided to our Customer. The Inspection Team has effectively and efficiently managed several projects to ensure good quality was provided to our Customer. They have contained issues allowing us to eliminate shipment of bad product and provided continual improvements within the process.

2AM Associates have displayed a willingness and eagerness to provide quality service to us. They have been reliable and flexible from the start to finish of the project. It is evident that 2AM Group has provided adequate training to their Associates in order to increase the level of expertise within the organization

Through our developing partnership with 2AM Group, we are continuing to plan for the use of their services as we move toward the F25 project. It has been a pleasure to work with 2AM Group and we look forward to our continued partnership.

Sincerely,

Jack M. Coletti – MRO Purchasing Manager

Plastic Omnium Purchasing
